EMS Information Bulletin #069, dated July 1, 2009, is rescinded and replaced with this EMS Information Bulletin #2012-014 dated August 24, 2012.

The attached document consists of the Emergency Vehicle Operator Courses (EVOC) for Emergency Medical Services (EMS) vehicle operation based upon the United States Department of Transportation (USDOT) Objectives, as recognized by the Pennsylvania Department of Health (Department) for use within the Commonwealth of Pennsylvania.

Effective immediately:

1. EVOC programs and certificates of completion previously accepted by the regional EMS Council Offices across the Commonwealth of Pennsylvania, from the present date of this bulletin retroactive to 1995, that met or exceeded the USDOT EVOC Objectives, consisting of classroom and practical hands-on behind the wheel student driving components, were considered to meet the requirements of the Department at that time for emergency vehicle operation.
2. EVOC offered as per the attached approved curriculum document from the specific date noted, whether conducted as a stand alone Ambulance course or one combined with other type emergency vehicles, consisting of the safe, practical hands-on behind the wheel driving exercise with the student/candidate experiencing the type of vehicle(s) to which he/she would normally be assigned, is considered to currently meet the requirements of the Department, until such time a refresher program is indicated or required by the Department. Driving simulators are not acceptable at this time.
3. Individuals who can document completion of EVOC programs, that included a classroom and driving component, conducted prior to 1995, is considered to currently meet the requirements of the Department.

From this date forward, only those programs meeting or exceeding the most current USDOT EVOC (Ambulance) National Standard Curriculum, and pre-approved and recognized by the Department will be acceptable.
