

Special Printing Instructions for the Teen Game Plan Booklet

The *Teen Game Plan* booklet is a large-format report, printed on 11x17" paper.

Printing to 11x17" Paper

If you want a **full-size** printout of the *Teen Game Plan* booklet, you must use a printer that can print to 11x17" paper. Follow the procedure you would normally use to print PDF files and to print to 11x17" paper (load the 11x17" paper in the printer, select 11x17" paper under Printer Setup, etc.). If you encounter any difficulties, make sure your printer driver orientation option is set to 'portrait,' not 'landscape.' This booklet is meant to be printed double-sided. The 2 middle pages will look odd, but will be in the right place when printed (front and back) and folded.

Printing to Ordinary Letter-Size Paper

If printing to 11x17" paper is not an option, you can get a clear, readable printout of the *Teen Game Plan* PDF file on ordinary letter-size paper (8.5x11" paper). Follow the procedure you normally use to print PDF files to letter-size paper. When the Print window appears on your screen, select the 'Shrink to Fit' or 'Fit to page' option. Continue with your normal printing procedure. The *Teen Game Plan* report will be reduced in size so that each page fits on letter-size paper. This booklet is meant to be printed double-sided.
