

# **Pets can get sick too!**

Dogs can get tick bites and diseases too. They can also bring ticks into your home.

Tick bites on dogs may be hard to detect. Signs of tickborne disease may not appear for 7-21 days or longer after a tick bite, so watch your dog closely for changes in behavior or appetite if you think your pet has been bitten by a tick.

## **Talk to your veterinarian about:**

- \* The best tick prevention products for your dog
- \* Tickborne diseases in your area

## **To further reduce the chances that a tick bite will make your dog sick:**

- \* Check your pets for ticks daily, especially after they spend time outdoors.
- \* Remove ticks from your pet right away.
- \* Reduce tick habitat in your yard
