

Infection Prevention and Control help is on its way for Nursing Homes in Pennsylvania. Sign up for your free ICAR assessment led by a CIC-Certified Infection Preventionist today!

## Benefits of Participating

- Expert IPC consultation from APIC Consulting's highly experienced, board-certified infection preventionist consultants.
- Consultants are equipped to visit facilities experiencing an outbreak.
- Facility-specific recommendations to help improve your facility's IPC program.
- In-person IPC training tailored for staff; training for multiple shifts and a summary of staff training is provided.
- Additional support available following onsite visits to help your facility complete recommendations.
- The assessment is non-regulatory. Receive non-punitive support to strengthen your facility's general IPC practices and improve staff knowledge and understanding of key IPC topics.
- *All at no cost!*
