

Free antimicrobial stewardship program for long-term care facilities focused on improving appropriate diagnosis and treatment of urinary tract infections.

---

## Project Components

- Simplified Approach to Diagnosis
- Treatment Guidelines
- Tools and Training (Quality Assurance and Performance Improvement)

## Participation in the program provides the following benefits:

- ✓ Access to tools
- ✓ Evidence-based physician order set for suspected UTI
- ✓ Diagnostic clinical vignettes and how to utilize them within your facility
- ✓ Coaching call webinars
- ✓ “One-on-one” consultation calls with facilities
- ✓ Family information handouts:
  - ◇ *Choosing Wisely*
  - ◇ *Tests and Treatments*
- ✓ American Medical Director’s Association (AMDA) “On-the-Go” podcasts

# You will also have access to a facility dashboard that provides:

- ✓ LTCF Antimicrobial Stewardship
- ✓ Tables and Graphs that track:
  - ◇ Number of monthly UTIs
  - ◇ Percentage of UTIs that are likely cystitis, unlikely cystitis, and complex cystitis
  - ◇ Number of *C. diff* cases
  - ◇ Number of hospital transfers
  - ◇ Number of deaths
- ✓ Quarterly benchmarking with all facilities
