

## Digital Data Logger Comparison Guide

Use the table below to familiarize yourself with digital data logger (DDL) features.

	Basic DDL	Multiple Sensor DDLs	Continuous Temperature Monitoring Systems (CTMS)
<b>Price</b>	\$80 - \$200	\$250-\$400	\$500-\$2,000
<b>Provider benefits</b>	Low cost, easy setup	Use for both refrigerator and freezer if they are close to each other	Good for larger organizations
<b>Key features</b>	Continuous temperature monitoring	Continuous temperature monitoring	Continuous temperature monitoring
	Current, min and max display	Current, min and max display	Current, min and max display
	Visual and/or audible alarm	Visual and/or audible alarm	Visual and/or audible alarm
	Low battery indicator	Low battery indicator	Low battery indicator
	Monitors one unit	Monitors up to two units	Monitors multiple units, usually via Wi-Fi
	---	---	Wi-Fi
	Data stored on DDL, flash drive, computer, SD card	May use Cloud	Uses Cloud
	Data stored on DDL, flash drive, computer, SD card	Data stored on DDL, flash drive, computer, SD card or to Cloud	Data stored to Cloud
	Out-of-range temperatures displayed on unit	Out-of-range temperatures displayed on unit	Out-of-range temperatures displayed on unit and/or available via text, email, phone
