Introduction

The Pennsylvania Breastfeeding Referral Guide contains county-specific individuals and organizations that can provide breastfeeding awareness, support and assistance. It includes information on lactation specialists, community programs, support/mother groups, community coalitions, breast pump rentals and local, state and national help lines.

Definitions of the terms used in the guide are presented after the Table of Contents. County pages can be printed individually by county for handy reference. Additionally, a listing of websites and other materials is included for your review and use. The Ctrl (control key) + Click (mouse click) function is enabled in this document; just mouse over any of the entries in the Table of Contents and use Ctrl + Click to navigate directly to the selected page.

This document is only available electronically. You can print copies from it. If you are unable to print a copy, you may contact the Pennsylvania (PA) Department of Health at the phone number or email below to receive a hard copy via mail.

The Referral Guide is based on information submitted to the PA Department of Health. Updates or corrections can be sent to:

Please Note: The Department of Health is providing information in this document as a means of supporting breastfeeding women but does not endorse any individual or organization presented in this guide, nor does it endorse any commercial products or producers that are presented.
Definitions

**International Board-Certified Lactation Consultants (IBCLCs)** are breastfeeding specialists who have completed a minimum of 90 hours of education, 1,000 hours of clinical experience and have passed the certifying examination given by the International Board of Lactation Consultant Examiners. These specialists offer assistance with concerns such as: low milk supply, a baby who is having difficulty latching onto the breast or is sucking incorrectly, sore nipples or breasts, a baby with down syndrome, twins, a premature baby with a feeding problem, a cleft palate baby, illness of mother or baby, breastfeeding an adopted baby, etc. Some hospital-based IBCLCs provide consults after discharge. There may or may not be a fee for this out-patient service. Private practice IBCLCs may provide home visits and/or see clients at their offices. There is a fee for the service that is covered by some insurance companies. Some practitioners have a sliding scale of fees. To find an IBCLC go to [http://www.ilca.org/why-ibclc/falc](http://www.ilca.org/why-ibclc/falc).

**Lactation Nurses (RN, CNM)** are nurses or nurse midwives who have additional breastfeeding training and experience but have not taken the certifying exam given by the International Board of Lactation Consultant Examiners. Breastfeeding concerns beyond their level of skill are referred to an IBCLC.

**Certified Lactation Educators/Counselors (CLE, CLC, CBC)** are breastfeeding counselors/educators who have completed a 12- to 40-hour course in breastfeeding and have passed a certifying exam. Breastfeeding concerns beyond their level of skill are referred to an IBCLC.

**La Leche League Leaders** are experienced breastfeeding mothers who are accredited by La Leche League International (LLLl) to help mothers and mothers-to-be with breastfeeding. Leaders are ready to offer encouragement, support, information, and practical help to both mothers and medical professionals. All shared information of a medical nature has been approved by the LLLl Health Advisory Council.

**Other Volunteer Breastfeeding Mothers’ Groups**
Some counties have additional breastfeeding groups, either through hospital-based mother groups or volunteer organizations. Women who have breastfed may decide to volunteer their time to help other mothers succeed at breastfeeding. Some group members attend training courses to learn about breastfeeding beyond their own personal experience. They are available by telephone or group meetings to answer questions about breastfeeding and parenting.

**Women Infants and Children (WIC) Program**
The Pennsylvania (PA) WIC Program provides nutrition assessment and education from trained nutrition professionals, breastfeeding promotion and support, and healthful foods to help participants reach their nutritional goals. PA WIC provides breastfeeding services through their Designated Breastfeeding Experts (DBE), Peer Counselors and Nutritionists, each with a different scope of practice and level of participant support. Complex breastfeeding challenges are handled by WIC DBEs and/or referred to physicians or IBCLCs in the community.

PA WIC also provides quality breast pumps and breast pump education to further equip women for success in a variety of situations throughout their breastfeeding journey. PA WIC is funded by the United States Department of Agriculture (USDA). These services can only be provided to WIC participants. Refer mothers to pawic.com to apply!

Purchasing Retail Breast Pumps
The baby section of local department stores and pharmacies may carry various brands of pumps. Choose wisely! Pump brands vary in quality and effectiveness. Call a local breastfeeding specialist for more information. NOTE: The Food and Drug Administration (FDA) considers breast pumps single use devices, with the exception of FDA cleared, hospital-grade pumps, and recommends that pumps should only be used by one woman, because there is no way to guarantee the pump can be cleaned and disinfected between uses by different women.
