

Keystone 10 Facility Progress Tracking Sheet

The Keystone 10 Initiative began in March 2015 as a quality improvement breastfeeding initiative that engages Pennsylvania birthing facilities in efforts to improve the protection, promotion and support of breastfeeding. It is expected that each participating facility will embark on a three to five year journey to implement the evidence-based Ten Steps to Successful Breastfeeding. This tracking sheet utilizes a check mark to identify the steps each facility has implemented. Facilities that have completed all ten steps are identified as Keystone 10 Designated. *Current as of September 2020.*
