### **PDMP SYSTEM VENDOR TRANSITION**

The Pennsylvania Prescription Drug Monitoring Program (PDMP) will be transitioning PDMP system vendors from Appriss PMP Aware and PMP Clearinghouse to LogiCoy.

Transitioning the PA PDMP System to LogiCoy will not impact existing integrations between organization's Electronic Health Record (EHR) systems or pharmacy management systems. If your organization uses Appriss PMP Gateway or RxCheck to connect to the PDMP, your organization does not need to make any changes and will not experience any disruption to your integration. Pennsylvania DOH and LogiCoy are working with Appriss PMP Gateway and RxCheck to configure this change between the PDMP System and integration hubs. This means that any configuration or functionality customized by your EHR or pharmacy management system vendor will continue to function after the transition, including interstate searches.

The new LogiCoy PDMP will include enhancements that are based on feedback from PDMP users, including a single platform for pharmacist to search patients and upload/edit data, quicker access to patient reports, and enhanced visualization to make interpreting reports easier.

Starting on **January 10, 2022**, PDMP users will need to transfer their accounts to create new login credentials within the LogiCoy PDMP platform. Transferring accounts takes an average user less than two minutes, as registration has been streamlined to pre-populate information based on the user's license information. To transfer their account,

Prescribers will need their:

- Pennsylvania Professional License Number
- National Provider Index (NPI) Number
- Drug Enforcement Agency (DEA) Number \*if applicable\*

Pharmacists will need their:

- Pennsylvania Professional License Number
- Employer/Pharmacy's Drug Enforcement Agency (DEA) Number
- Employer/Pharmacy's State License Number

Delegates will need:

- The email address their supervisor (person they will search patients on behalf of) used for their LogiCoy PDMP account
- A valid form of identification (Driver's License, Passport, Government ID)

Data submitters will need:

- A valid form of identification (Driver's License, Passport, Government ID)

**The transfer account period begins on January 10, 2022 and ends February 14, 2022. During this time all PDMP users must:**

1. Visit <https://pdmp.health.pa.gov/>
2. Click “Transfer Account or Register”
3. Follow the prompts and enter their information
4. Ensure the information is correct and submit

Please note, before February 14<sup>th</sup> PDMP users will continue to use [PMP Aware](#) to search patients and [PMP Clearinghouse](#) to upload data. On February 14<sup>th</sup> PDMP users will begin using the [LogiCoy PDMP](#) to search patients and upload data. Users who access the PDMP through their organization’s EHR or pharmacy management system will not need to change how they search patients and will not experience any changes to their EHR or pharmacy management system’s connection to the PDMP.

For assistance with account transfer, please contact LogiCoy technical support at 844-939-0999 or email [papdmp@logicoy.com](mailto:papdmp@logicoy.com).
