CAUGHT COVID?

IT'S OKAY.

ACT FAST TO FIND YOUR TREATMENT OPTIONS TODAY.

Medicines are now authorized for most patients who test positive for COVID-19.

After you have a positive test, ask a healthcare provider immediately if these outpatient options may be right for you.

Act fast, even if your symptoms are mild – most treatments must start within 5 days of initially feeling sick.

To learn more about COVID-19 treatments and where to get care, visit the PA Department of Health's website at health.pa.gov.
