Pennsylvania Report on Untested Sexual Assault Kits and Backlogged Evidence

April 2017

The Sexual Assault Testing and Evidence Collection Act ("SATEC") was amended on July 10, 2015, with the passage of Act 27. Pursuant to Section 10172.3 of SATEC, as amended, local law enforcement agencies[1] were required to submit to the Pennsylvania Department of Health ("Department") the number of sexual assault kits: (1) in their inventory not yet submitted to a laboratory for testing as of September 7, 2015;[2] and (2) any backlogged evidence.[3] *See* 35 P.S. §§ 10172.3(d)(1), (e)(1). Additionally, each testing laboratory used by a local law enforcement agency was required to submit the same information to the Department. *See* 35 P.S. §§ 10172.3(d)(2), (e)(2).

Every year, by April 30, the Department is required to compile the submitted data and publish a report summarizing the information submitted by the local law enforcement agencies. *See* 35 P.S. § 10172.3(e)(3). The Department's annual report – one of among many of Act 27's fundamental changes – is intended to provide a comprehensive view of the number of untested sexual assault kits in the commonwealth and to ensure that those kits are tested in a timely fashion. This, in part, will ensure that sexual assault data is uploaded into the requisite federal database to help solve related sexual assault cases.

---

[1] A local law enforcement agency is defined as "[a] police department, of a city, borough, incorporated town or township, a regional police department, the Pennsylvania State Police or campus police." 35 P.S. § 10172.2.

[2] The SATEC does not define what constitutes inventory for the purpose of submitting data to the Department.

[3] SATEC defines backlogged evidence as "[s]exual assault evidence that is awaiting testing for 12 months or more." 35 P.S. § 10172.2. Evidence is awaiting testing if it meets all of the following conditions: "(1) Has been collected and is in the position of a local law enforcement agency; (2) Has not received DNA and other appropriate forensic analyses; (3) Is related to a criminal case or investigation in which final disposition has not been reached; (4) Should undergo DNA or other appropriate forensic analysis as determined by a local law enforcement agency." *Id.* Notably, a case or investigation has reached final disposition if: (1) a conviction or acquittal of all suspected perpetrators of the crime involved; (2) a local law enforcement agency in possession of the sexual assault evidence has determined that the case is unfounded; or (3) a declaration by the victim that a sexual assault has, in fact, not occurred. *Id.*

In an effort to ensure that the Department received accurate and complete information on September 6, 2016, the Department signed an agreement with Pennsylvania State Police ("PSP") to improve the data collection procedures. As a result of this agreement, an additional 467 law enforcement agencies submitted reports in 2017. To accomplish this task, PSP used an online data collection tool. A copy of this tool is included as Attachment #1.

This report is a summary of the information submitted to the Department for 2016. The following is an executive summary of the data collected by the Department as of March 7, 2017. A full summary is included as Attachment #2.

Statistic	Number of police departments reporting	Number of sexual assault evidence kits awaiting testing
Baseline inventory of sexual assault kits not yet submitted for testing on September 7, 2015	499	3,217
2015 report – sexual assault kits awaiting testing for 12 months or more	432	1,908
2016 report – sexual assault kits awaiting testing for 12 months or more	899	1,214

Pursuant to the Sexual Assault Testing and Evidence Collection Act (SATEC), 35 P.S. §§ 10172.1 – 10172.4, local law enforcement agencies must annually report backlogged evidence data no later than January 31. Reporting of data is to be accomplished through the completion of this survey. Survey results will be compiled by the Pennsylvania State Police and provided to the Pennsylvania Department of Health.

   3) Is related to a criminal case or investigation that has not reached final disposition
   4) Should undergo DNA or other forensic analysis as determined by a local law enforcement agency
