Infection Control...

Works!

The right practices can stop germs from spreading in healthcare facilities.

Is a Team Effort!

Infection control is most effective when all team members use it consistently.

Matters!

Infection control is a critical part of safe healthcare delivery in all healthcare settings.

What Is PA Project Firstline?

PA Project Firstline (PA PFL), developed in partnership with the CDC, is a training collaborative designed to provide frontline healthcare workers with foundational knowledge on infection prevention and control so they can keep themselves and their patients safe. (IPC). PA Project Firstline activities are building Pennsylvania's healthcare workforce expertise in IPC and helping to keep communities safe from infectious disease threats.

PA Project Firstline reaches healthcare workers in all healthcare settings including:

- Hospitals
- Outpatient Clinics
- Dialysis Centers
- Nursing Homes
