

CREATING a

Walkable Community

in

PENNSYLVANIA

Healthy

Regular walking can **REDUCE ANXIETY AND DEPRESSION**, and improve mental function.

Connected, walkable communities are even associated with better memory among Alzheimer's patients

Walkable communities are correlated with better physical health, including **LOWER RATES OF OBESITY.**

Safe

As more people walk in a community, the **RISK** of being struck by a vehicle **DECREASES.**

Community design that encourages walking also tends to **SLOW VEHICLE TRAFFIC**, reducing the number of crashes.

Vibrant

Walkable communities **ATTRACT MORE BUSINESSES.**

Walkable neighborhoods boast **HIGHER HOME VALUES**

A PROJECT OF THE PA WALKABLE COMMUNITIES COLLABORATIVE

Green

More people walking means fewer cars on the road, **REDUCING THE AMOUNT OF POLLUTANTS** in the air such as carbon monoxide and particulates.

Tree-lined streets, a key component to many walkable areas, can **IMPROVE AIR QUALITY** and **LOWER SURFACE TEMPERATURES**.

Connected & Accessible

Walkable communities

CONNECT PEOPLE TO THE PLACES THEY LOVE such as recreation opportunities with parks and trails.

Walkable communities with accessible sidewalks are **BETTER FOR FAMILIES AS WELL AS OLDER ADULTS AND PEOPLE WITH DISABILITIES**, providing space for navigating wheelchairs, walkers, and strollers.

Equitable

Including walking infrastructure is inclusive, as **ALL PEOPLE BENEFIT** regardless of wealth or physical ability.

A walkable community can **REDUCE A FAMILY'S TRANSPORTATION COSTS**. Owning, maintaining, and operating a vehicle costs \$8,500 per year.

WALKING IS FREE!
