

Viewing Facility Users: Active and Terminated

Notes:

- This search produces a list of users based on the search criteria (*Current* or *All*). Although this has many uses, one possible use is for reconciling the search results with the DAVE[™] User Account Request forms on file.
- If your facility is also a birthing facility, the names of users who report births will appear as well.

Enter the facility or campus name in the Office field. Do not enter anything in the other two fields.
Username Last Name Office Harrisburg Hospital
To search for all currently active users associated with your facility or campus, click the Search Current button.
To search for all users (including those with terminated accounts) that have been associated with your facility or campus, click the Search All button.
