2018 Winter Division of School Health Update

- 1) Important Due Dates for School Health Annual Reimbursement Request System (SHARRS) and Dental Hygiene Authorization Plan Submissions
 - a. <u>It is important schools mark their calendars with the following important **annual report Due Dates.**</u> There have been changes made to the submission dates due to the new SHARRS program. It is imperative reports and dental hygiene authorization plans be submitted in a timely manner. The Division of School Health has worked with schools to assist them in submitting their reports by sending numerous messages to submit the report but It is ultimately the school's responsibility to ensure the reports are submitted timely. Late submissions and inaccurate information delay the Division's ability to process the reports and often results in schools having to submit revisions and the Division to review a school's report multiple times. It is imperative users read and refer to the instructions in SHARRS in order to submit accurate reports.
 - b. The **School Health Annual Reimbursement Report** will <u>now open</u> for data entry **May 15 and close September 30**. Only the Superintendent has the capability to submit the SHARRS report.
 - i. The September 30 SHARRS due date is written in law. From the Public School Code of 1949: Section 2505.1. State Reimbursement for Health Services. "...(b) ...Reimbursement on account of health services rendered by a school district or joint school board may be withheld by the Secretary of Health unless the actual expenditures for the health services are certified to the Secretary of Health within three months after the end of the school year..." (the school year ends June 30).

- c. The **Dental Hygiene Services Program Authorization Plan** <u>will now open</u> for data entry **April 1 and close April 30**. Any SHARRS user may submit the dental hygiene authorization plan.
 - i. The Dental Hygiene Authorization Plan must be closed for data entry before the SHARRS system can be opened for data entry in order for the system to process reports correctly. Late entries will no longer be accepted as this causes errors in processing.
 - ii. The Dental Hygiene Authorization Plan is a plan for the upcoming school year. The plan must be developed by the Dental Hygienist and approved by the school dentist and school administration prior to the start of the school year.
 - iii. Schools that do not have a hygienist hired, a plan developed and approved will revert to a Mandated Dental Program and cannot be changed after the closing date due to processing requirements.
 - iv. If a school does not have a certified hygienist then they may not implement a Dental Hygiene Services Program (DHSP) and must implement a Mandated Dental Program. See the Division of School Health's website for more information on both programs. <u>http://www.health.pa.gov/My%20Health/School%20Health/Pages/Dental-Health-</u> <u>Program.aspx#</u>
